LOCAL
MANUFACTURES

Different Products, One Goal

Our team is continuously monitoring developments in the market with a special focus on steroids and biochemical products.

We monitor and report on:

- Raw material pricing, crucial for steroids and biochemical products.
- Mergers & acquisitions.
- Technological developments that may impact the market.
- Local regulations that may influence your supply chain.
- Exchange rates & tax regulations.

WAREHOUSING

RE-SELLER FOR
LOCAL
MANUFACTURES

Different Products, One Goal

Selection:

- Screening / due-diligence visit on management & QEHS level
- Based on selection of suitable candidates by customer:
 - Perform GMP & EHS audits at producers, provide samples & validation batches
 - Host customer GMP & EHS audit if required.

Contract:

- 3-party Quality, Commercial, Logistical and Legal Agreements

Development:

- Run EHS and/or GMP audits with suppliers at customer's request
- Manage Change Control and supporting manufacturers to maintain / increase their QEHS performance and (process) improvement programs

Different Products, One Goal

- With our excellent money-market liquidity we can pay for goods in advance, a requirement of many local producers in China.
- We own the materials until we sell to our customers with standard payment term.
- Risk reduction for our manufacturers and our customers.

Different Products, One Goal

- Three in-transit warehouses:
 - one in Nanjing
 - two in Shanghai
- In depth knowledge of application procedure for export license
- Custom clearance in China
- Transportation by air or by sea

We Care

Environment, Health & Safety

We all live in the same planet;
We care about EHS as much as you do

No matter the certification of a manufacturer (ISO 14001 or ISO 45001), our QEHS professional team is going to prepare:

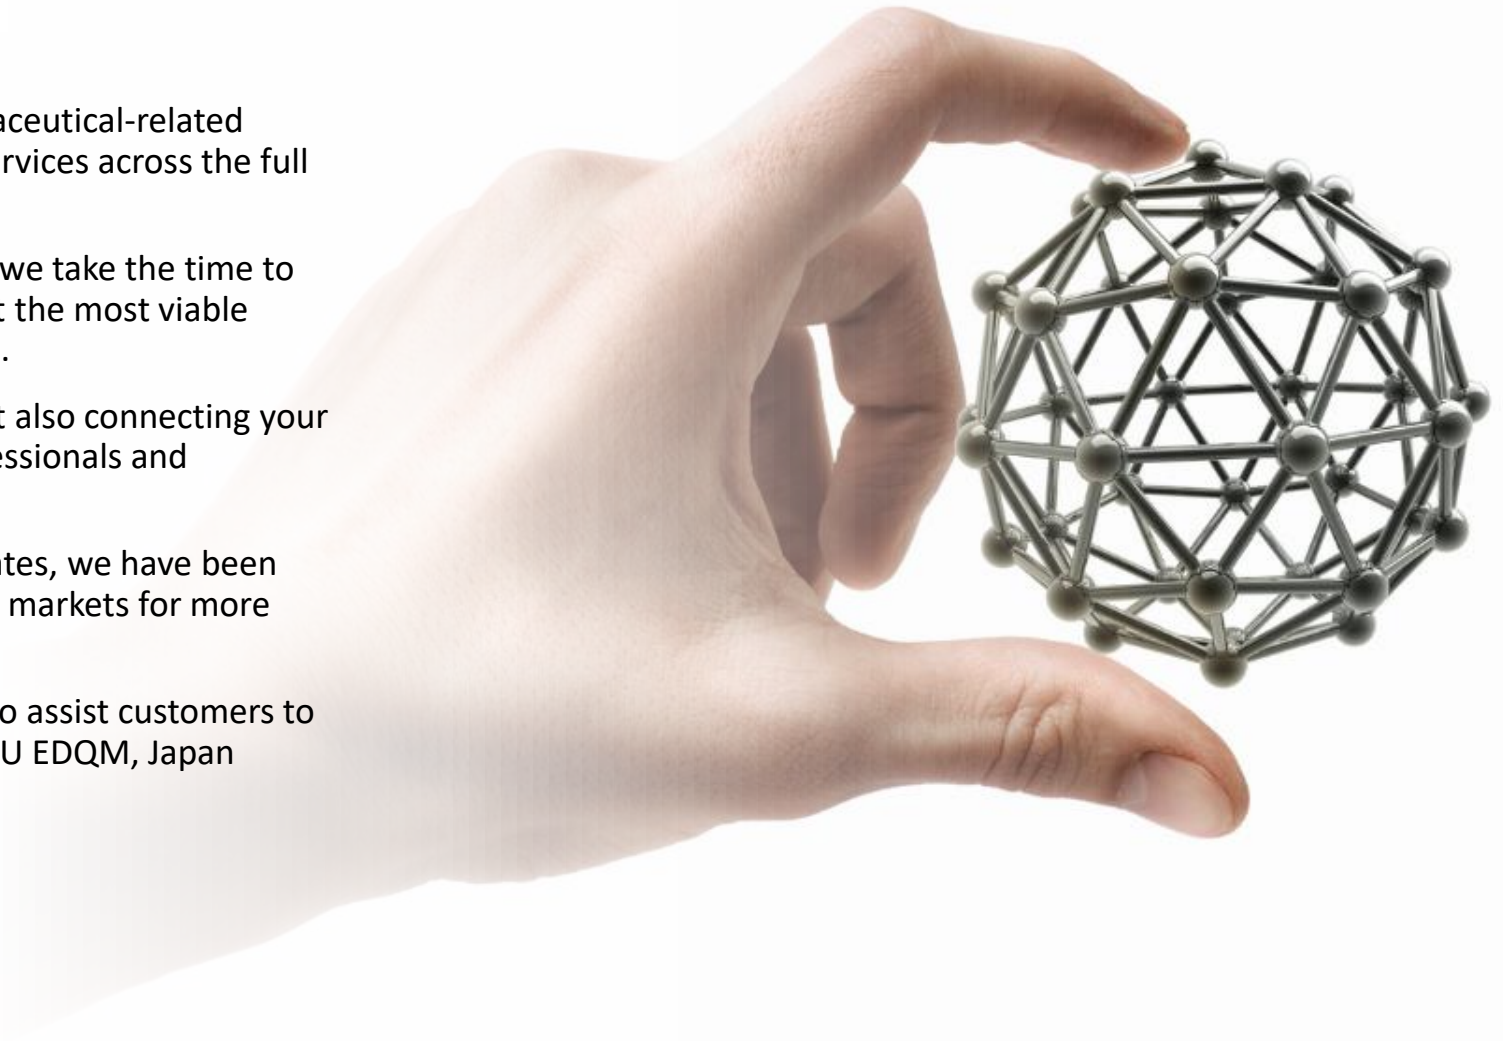

- the audit program for relevant region
- follow pharmaceutical supply chain initiative (PSCI)
- report the audit
- follow up the CAPA and audit closure.

More importantly,

- we do not only audit the manufacturers, we also provide guidance to help them to improve EHS and Quality / cGMP standards step by step.

Our Expertise

- Our professional team provides pharmaceutical-related products and high-quality consulting services across the full industry chain around the world.
- Because we care about our customers, we take the time to research your situation and bring about the most viable solutions ensuring we meet your needs.
- We are not just selling our products but also connecting your needs to the local manufacturers, professionals and networks.
- Focusing on pharmaceutical intermediates, we have been helping our clients unlock the potential markets for more than 28 years.
- Our team has professional knowledge to assist customers to pass international standards: US FDA, EU EDQM, Japan PMDA and other regional authorities.

We Take Responsibility

- Chemphar handles logistics that are required by customers: finding the most suitable factory, negotiating prices, final product quality assurance, insurance, shipping, delivery and etc.
- As matter of fact, we are proud of ourselves in maintaining a small-firm feel by treating every customer's demands with care and consideration.
- In the past, we have helped our manufacturers to improve GMP and EHS qualification and successfully assisted them to pass US FDA, EU EDQM and Japan PMDA auditing according to customer's special requirements.

Our Knowledge

Our team has professional knowledge to assist customers to pass international standards: US FDA, EU EDQM, Japan PMDA and other regional authorities.

We guarantee effective and high-quality consulting service.

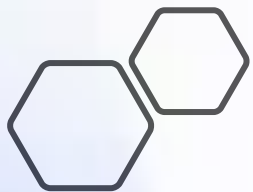

Quality

Our Promise:

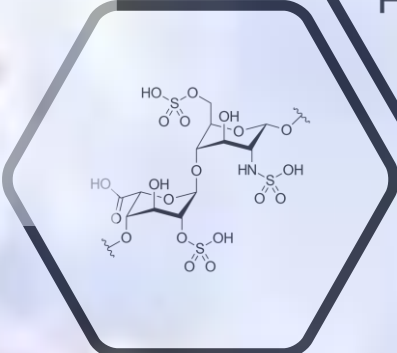

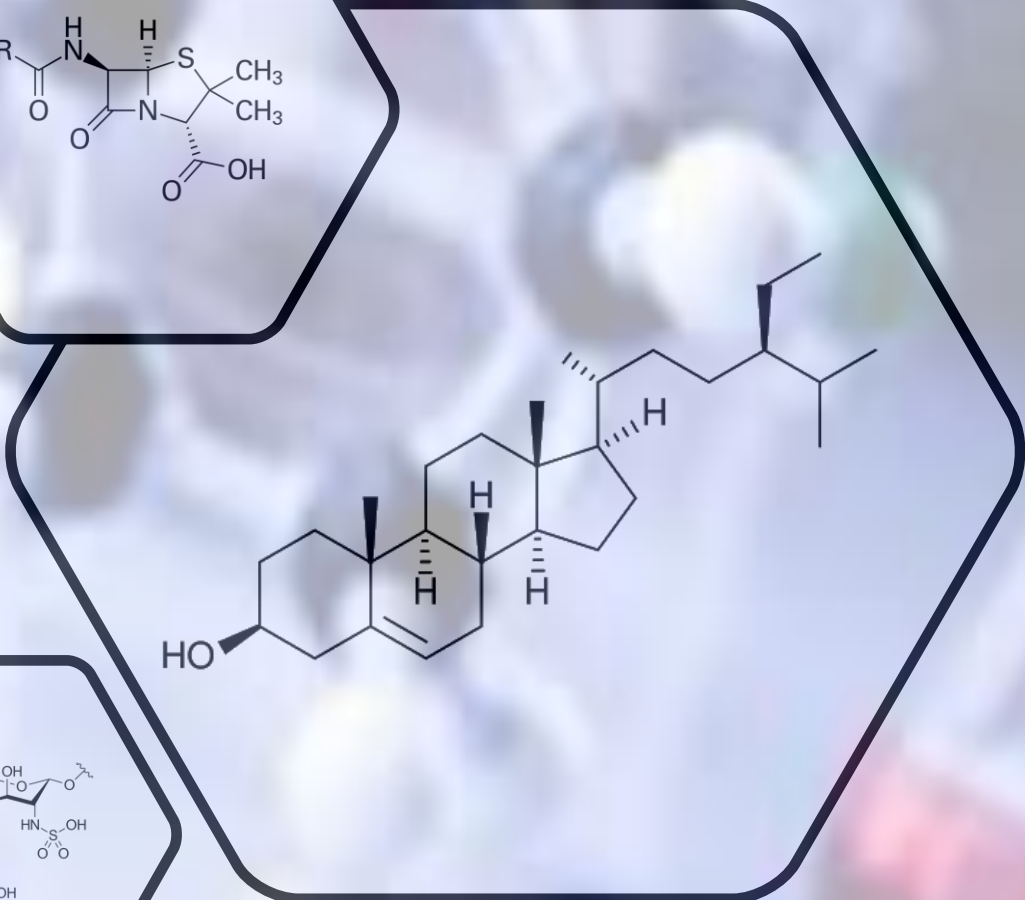

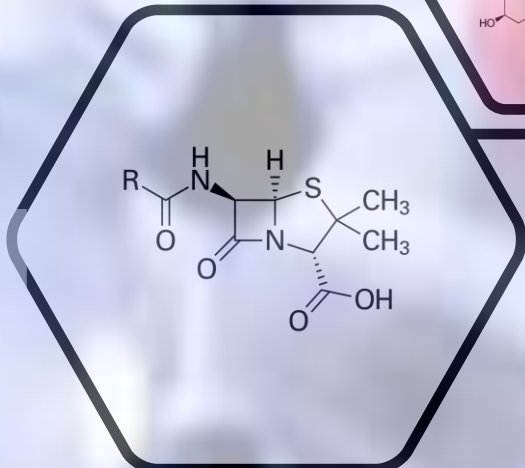

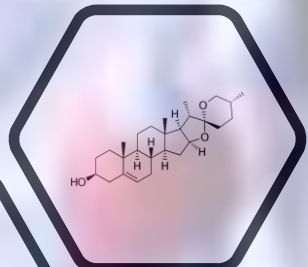

Quality above Quantity
